### Fabric Technology

Hair & Beauty Wear™ uses only the best fabrics we can source globally, created specifically for the hair and beauty profession. We believe we have set the standard for the hair dresser and beautician uniform of the future.

The extensive use of nano technology within the fibres of the fabric sets us apart from the crowd. This is a revolution in garment technology and allows us to offer a safety measure never seen before in any hair dressing or beautician uniform on the market.

The use of Hair & Beauty Wear Durapel™ and Hair & Beauty Wear Anti-Bacterial™ gives our garments the ability to repel the everyday problems of being in close proximity to customers.

It repels most liquids used on a day to day basis. It also repels dirt and oil based products allowing you to keep that clean fresh look. When a spillage occurs the liquid will simply bead and roll off the garment. A simple wipe will remove any excess liquid. Enjoy the convenience of removing dirt and stains easily with a simple machine wash. So say good-bye to those nasty stains.

\*Please Note Hair & Beauty Wear Durapel™ is a Stain repellent garment and not Stain Proof, please avoid things such as Ink, Paint, Grease etc... Look after your garment and your garment will look after you.

Hair & Beauty Wear™ is the industry leader when it comes to the innovation of hair dressers and beauticians tunics. We bring innovation, style, comfort, but most of all functionality to all of our garments. That is why Hair & Beauty Wear™ uses the very latest in garment technology. This process is achieved through our specialized fabrics and manufacturing techniques.

Our garments are designed with only the hair and beauty industry in mind. At Hair & Beauty Wear™ we understand that the requirements of the hair and beauty industries are difficult and demanding.

This has been the foundation of what we, as a company would maintain as standard in our complete range of uniforms.

We have dedicated fabric technicians who travel the globe to find the right materials for our products; they are at the forefront of Nano-Fabric Technology.

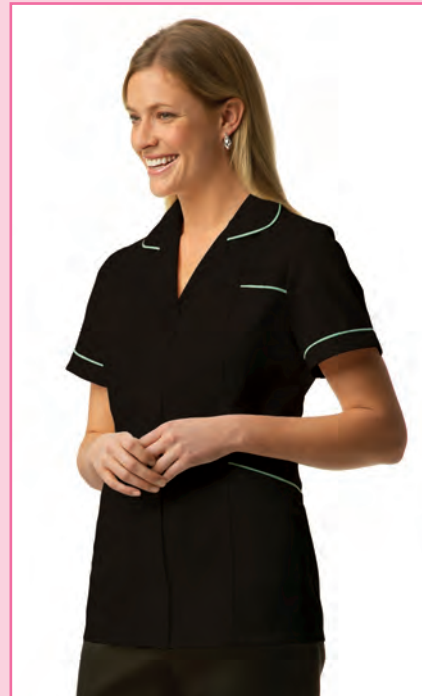

At Hair & Beauty Wear™ we like to have a "hands on approach". We have employed the finest pattern & dressmakers to make sure each and every one of our garments meets the 3 F's. Form, Function & Fashion.

Our Tag Line "The Perfect Fit", reflects not only the functionality and fashionable design of our garments, but also honors the integrity of your business, by portraying a professional image.

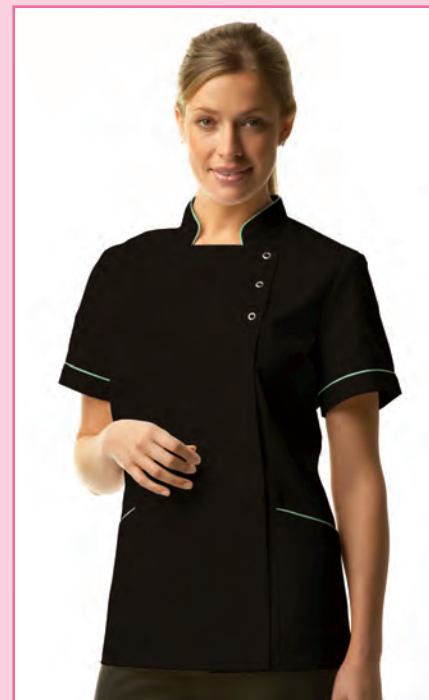

We recognize that hair dressers and beauticians are not only our customers, but also individuals who make a tremendous contribution to a customers presentation and self esteem. And it is only right that they have the best uniform for the job. The Hair & Beauty Wear™ Uniform.
